Hello my name is Scott and I do painting for both residential and commercial customers.

I do all the painting myself and don't contract it out to amateurs. I work on one job at a time which allows me to focus all my attention to your project. I am very reliable and will provide you with a stress free painting project and a professional looking job.

My customers buy the paint they want to use so there is no markup on the paint and just pay me for my labor.

No job to small...
