

Seeking Spanish Tutor (Oklahoma City, OK)

Location **Oklahoma** https://www.genclassifieds.com/x-503067-z

I am in search of a Spanish tutor.

I am not a student. I am not looking to "make the grade." I am not a parent looking to pressure my child to make an A.

I am an adult with a full-time job looking to become fluent in Spanish at a professional level. I work on the phones all day, and I want to proficient enough to be able to take the Spanish language calls.

I have some experience with Spanish -- but there are a lot of gaps that I want to fill in. I also happen to be a grammar geek with a love of languages and communication. I do not know what level of Spanish I would consider myself -- we will need to talk about that. I do know that I am NOT very advanced.

You do not have to be a native speaker, but you will need to be extremely fluent. I am certainly looking for Spanish conversation, but I am also looking for someone who can teach me the grammar and vocabulary. You will need some sort of experience teaching or tutoring. I want someone who can challenge me, guide me, and who isn't afraid of me asking a lot of questions. I want someone who can help me learn.

We will need to meet so you can assess my level, and we can discuss common goals and scheduling. I am looking for either Friday evenings after I get off work (I am off around 6:00) or Saturday afternoons, for an hour or two. Sessions will take place in some public area like a library or bookstore. I want someone I can work with that can get to know my learning.
