Carpenter Framing Sub

Location **Wisconsin**
https://www.genclassifieds.com/x-503135-z

We are a high-volume home building company that is in need of qualified rough carpentry framing crews. Crew must be well experienced, fast, and efficient in new home framing construction. Crews must carry full appropriate insurances and provide all of their own transportation, tools, and equipment (crane or forklift rental OK).

We are looking for a subcontractor only, this is not an offer for employment.

In your response, please tell us where you are based out of, how many people are on your crew, and if you have more than one crew. Thank you.

Please reply via the Craig's List e-mail.
