We are a local band in need of a Keyboardist with Lead Vocals to play Southern Rock, Classic Rock, Country, & a little Red Dirt Country. We have a Lead Guitarist, Bassist, and Drummer. We are an experienced band and not looking for beginners. Here are some of our cover groups: Lynyrd Skynyrd, Blackberry Smoke, Kentucky Headhunters, Darth Brooks, Eagles, Doobie Brothers, Blackfoot, Allman Brothers, Montgomery Gentry, Darius Rucker, Brad Paisley, Steppenwolf, Bad Company, ZZTop, SRV, Johnny Lee, Travis Tritt, Jimmy Buffett, Climax Blues Band, BTO, and much much more. For an audition you must know at least 10 of our songs and this is not a heavy assignment or requirement. Drama or trying to call the shots won't work. If you a front man or front woman that would be a big plus. We might even let you call the shots. We are three likeable guys who really love to play. WE ARE READY TO GIG. If you are interested or have any questions, please call me at,
