Dessa is a 5 year old, female, Shepherd mix whose family can no longer keep her. Where she's been living she's had limited space causing her to be overweight and needing to release her energy. With proper exercise, structure, and training she would thrive. When Dessa first meets people she is quite animated and wants to jump up on you but calms to sit and receive petting and rubs (which she loves). She "talks" like a Husky and when she meets other dogs she will give a verbal greeting, have a good smell, followed by a full body wiggle, and then she's ready to play. Her family reports that she has lived with other dogs and cats and with proper introductions gets along well with them. Dessa has lived with teens and met younger children and was well behaved with them.

Dessa has been spayed, vaccinated, and micro-chipped. We are looking for a foster and/or adoptive home for Dessa. An application with references, a home visit, and an adoption fee are required to adopt Dessa. Reply to this posting for.
