Meet the dynamic duet known as Joker and Shiloh. These 6 year old brothers have had great success as a pair but are willing to go solo to find new homes. They both weigh around 85 lbs. and are Shepherd/Labrador mixes. Medium energy, house trained, and both walk fairly well on leash but could use more practice. Joker and Shiloh both know "sit". They are good with other dogs and chase cats. They don't live with children but when the grandson comes to visit, they beseech him to pet them. Joker and Shiloh can both be puppy-like and mouthy when playing, so homes with older children would be best. They are left loose in the house when their people are out and are non-destructive. Like most Shepherds, they bark to warn strangers and to alert their people. Joker and Shiloh are affectionate, playful, and in need of foster and/or forever homes.

They are neutered, vaccinated, and micro-chipped. An application with references, a home visit, and an adoption fee are required to adopt. Respond to this posting for.
