

Collective Living

Location **Vermont**
<https://www.genclassifieds.com/x-503203-z>

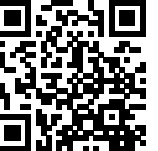

Hi Folks!
We want to live in a "communal homestead" type of situation.

Want to move to something more rural with room to work on sustainable projects with others.

We are into health, awareness, self sufficiency, organics non -gmo, intentional living, preparedness, healthy communication, emotional maturity, natural health.

In the process of looking for property and trying to find others who are like minded. Open to whether we find a piece of property to purchase together or if someone has land who is open to sharing it with others. We are open to options. Look forward to hearing from you.

When you reply please put "OPEN" in the subject line so we know it isn't.
