

# Jobsite cleanup and digging. (SE Tacoma)

Location **Washington**  
<https://www.genclassifieds.com/x-503242-z>

I'm looking for a couple people who know how to work hard. I have some debris that needs to be deposited into a dumpster and some digging around the perimeter of an addition to accommodate a foundation footing,( requires digging while on your knees). More digging to accommodate a walkway, amongst other items. If you have any carpentry experience that would be a plus.

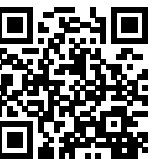

Please respond to this email and I'll be in touch. This job starts immediately.
