I would like to buy a newer model enclosed trailer in VGC with an air conditioner (but not a must) to do a toy hauler conversion, or a factory self contained toy hauler.

If you have an enclosed toy hauler with AC and it is priced right, I would be very interested to hear from you. Please send some current pictures along with the size and brand model name and your best cash sale price.

Must have a clean title or proof of ownership. Thanks (843) 97three
