I am a joyologist specializing in transforming the mind and body through nutrition, exercise and more. I can do your food shopping, prepare your meals and coach you through the process of changing your eating habits and your lifestyle while living in your home with you. We can also arrange phone consultation sessions if you'd like.

This is also my livelihood so lets see what we can arrange that will be mutually beneficial.

I have many references on my website www.kevinhinkle.com

Your JOYologist,
