

2007 John Deere 332 Skid Steer (3300 USD)

Location **South Dakota**
<https://www.genclassifieds.com/x-503477-z>

2007 John Deere 332 Skid Steer. Starts, runs and operates just as it should with no smoke, no leaks, no cracks, no welds, no rust, no odd quirks. Put it right to work. Has the hydraulic quick attach option to change attachments without leaving the seat. 14x17.5 tires - 2 @ 70%, 2 @ 20% - all hold air. Clean, tight, well-maintained loader. 6600 hours - used to load wood mulch and other materials at a garden center. Never been used for concrete, manure, fertilizer or in any other harsh conditions (used bucket shown is from a different JD loader and has some concrete spatter on it). This is not a perfect loader but it is definitely above average for the hours.

Specs: 91hp diesel, 3300# rated operating capacity, 6600# rated lift capacity plus additional weight kit to boost total lift capacity to 7000#. Similar specs to a Bobcat S330. If you need a skid steer to do the job of a pay loader or forklift then this guy is for you.

\$14,900 with used bucket shown. Other buckets, grapples, pallet forks, etc.
