Robert, I am not too sure what we expected but got something more than we had hoped. You are such a great person and you really added to our wedding! Our guests have been calling you the navy seal as most people dont remember you being there but they have all seen the wonderful pictures. I would recommend you to anyone looking to capture the pure essence of their wedding and am very luck that I found you. Again, thank you for all your hard work and I hope to work with you in the future!
