Need help in college algebra, trigonometry, geometry, or calculus I? You won't get a better deal than this. The first lesson is free, and if you're satisfied with my teaching ability, it's 7.50 per hour after that. But if you can find someone else offering a lower rate, I'll match it - guaranteed. (Sorry, parents, I don't do Common Core arithmetic and can't help your kid.) I've got a flexible schedule and will meet you anywhere in metro Burlington - short notice is fine. This is the "Better Call Saul" of math tutoring - get a slot while they're still available! Call or e-mail for.
