AVERAGE DELIVERY TIME 30-45 MINUTES!

Iaso coffee is sold at Special Occasions Heath Beauty and Fashion Boutique. located at 2415 South Collins St. Arlington TX 76014.

Iaso's Café Latin Style is infused with pure Ganoderma Lucidum extract. It has been reported to increase longevity, boost human immune systems, reduce high blood pressure and more. Ganoderma lucidum is the scientific name of the mysterious Red (Reishi) Mushroom that grows on only 2 out of 10,000 aged wild plum trees found in the dense and humid high mountain forests of Asia. The ancient Chinese crowned it as the "Miraculous King of Herbs" due to its superior attributes, which have stood the test of time for over 4,000 years. To date, no known herb has ever challenged its superiority. With good reason, thousands of scientific studies published on the Internet document growing confidence in its astonishing immunomodulation and adaptogenic properties.

First labeled "God's Herb" or "Spiritual Herb" by the Chinese, Ganoderma Lucidum was consumed regularly by emperors because of their strong belief in its ability to give them eternal youth and prosperity. For over 4,000 years, Ganoderma Lucidum has been the most revered herb in Chinese medicine and remains one of the most fascinating and highly documented foods ever encountered in nature. With well over 150 antioxidants and phytonutrients, Ganoderma Lucidum is the closest thing to nutritional perfection found in nature. A True SUPERFOOD! Now you too can enjoy this Ancient Chinese
