Hello,

I have a Beautiful Haired Sphynx Kitten that is Ready to go to her new home now. She was born on January 5th of this year so she is just about 5 months old. She is extremely friendly and loves to play with other cats. She is a Baby in every way. She has always been a Extremely small kitten, For just about 5 months old she is the size of maybe a 3-4 month old. I predict that she will probably always be a small cat. She is great with Kids and other cats. She is Happy and Healthy and Always has been. And She is Registered and has a available pedigree. I am asking a fee for her being she is a Registered Sphynx. If you have any Questions let me know..
