

Swingline SmartCut EasyBlade Rotary Trimmer (40 USD)

Location **Washington**
<https://www.genclassifieds.com/x-503797-z>

This 12" trimmer is very lightly used and in great condition with the original box and manual.

It's good for trimming items such as photographs and can be used for both office and creative work, including crafts. It contains a lade cartridge that's easy to change, so when the blade gets dull, you'll be able to replace it without risking cutting yourself. (It's a nice feature to have, especially if you'll be using the unit around children.) The blade is capable of cutting up to 10 sheets of 20 lb. paper at once. The unit is made of light gray plastic with an aluminum alignment grid, and there are rubber feet on the bottom so the trimmer will stay in place as you work. The alignment grid contains both standard and metric measurements so you'll be able to cut in the right places.

Safe and easy blade changing!

Simply discharge the EasyBlade cartridge and insert a new one.

The blade is concealed in the cartridge, so there is no exposure.

Store extra blades in the handy storage compartment.

Cutting line indicator shows exactly where the paper will be.
