I have this 38 gallon complete aquarium. Everything works great and is in excellent condition. Comes with everything shown in pictures. Asking \$150. Make an offer!  
 You will need to come pick up, on weekends or evenings after 6:30pm.  
 Right now there is a bluegill in there, haha. Acquired him by accident when buying feeder fish. You can either have him, or I can rehome him separately. He's probably only 4-5". Too shy to get a good picture of him.  
 Text or reply to this ad for more info. Thanks for!
