Casting Lead Actress for an INDIE Feature Film.

Pay is \$100-\$250 per film day, depending on experience. If you have years of experience, a reel, resume, ect - you will get paid the second par amount.

Film production is looking to start by the end of the year and will be filmed on weekends.
Obviously, we will not film on holidays.

The role does require nudity and an explicit sex scene.

The film will be fair across the board. Meaning, no gender will be more sexualized than the other.

Keep in mind, there's only one sex scene in the whole film and the movie itself will be close to two hours in length.

Looking to cast the right person!

Character Background

Danie (Female) 18-32 years of age.

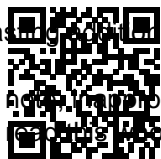

Pre-Law student who is a bit on the nerd side, hopeless romantic and awkward at times. Best way to describe her is being very indecisive, avoids confrontation and can be defensive, stubborn at times.

Must be blonde or brunette.

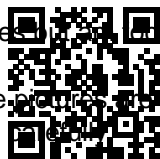

The movie will be filmed with a small but effective crew. You will get to meet everyone on table reads and photoshoots for the movie poster's, promotional material.
