

Fertile Full Blood Female

Location **Alabama**
<https://www.genclassifieds.com/x-504102-z>

We were going to breed our full blooded chihuahua, and decided last minute not to (expecting twins). She will be having her second heat cycle very soon (probably July). She hasn't been bred before (not suppose to until after age one and on first cycle). She is one, and in tip top health. Potty trained, but loves being both inside and out. She is current on everything, including flea prevention. Very mellow, and well behaved. Loves everyone and every animal! Had her since 8 weeks old, and have pics of her parents. Would love to find her a good home! \$150 rehoming fee for her. Thanks for!
