Boom Bap...Boom B-Boom Bap...Boom Boom Bap...Boom B-Boom B-Bap.

If you started nodding your head this post is just for you. I have a growing collection of vinyl and e-crates waiting to be chopped, flipped, low-end theorized, and glued backed together for the right vocalists. You opened the listing, why not take it a step further and reach out for some samples and quotes. Custom flips are available upon request as well.

Looking forward to hearing from you and working together.
