Bike Mechanic (sunnyvale)

Location **California**
https://www.genclassifieds.com/x-504259-z

My utility bike was beat up by shipping company. Need someone to give it a quick basic tune up and get me on the road again (if possible, not sure how effed the RD is)

Send me info about your experience and how much you would charge. Bonus points if you can come tonight or early tomorrow, I WANT TO RIDE MY BIKE DAMMIT.

I am in Sunnyvale / Mountain View near Bernardo and Washington.

Less pressing, but I would also like my road bike fixed too. It needs a spoke, true, and a tube. I have tubes and a patch kit, and I also have spokes, but idk if they are right size or not. Please let me know cost for this as well.

.
