Greetings, I am an artist, photographer, sound engineer and video producer. My Santa Rosa studio is fairly new and almost built out. We are hosting photography workshops in the portraiture and commercial realms.

This friday May 29th, 8PM I am hosting our second event and shoot. A pin-up type shoot with handsome and heavily tattooed vintage car club members. Rockabilly themed.

The warehouse next to mine is a hot rod club house, so we will have some hot rods and sweet motorcycles. A Victorian couch. Vintage bicycles. My studio has black, white and grey back drops. Loads of props and lighting options. Yes to dressing rooms.

My longtime photographer friend from Maui, is in town and will be shooting as well. He works with David LaChapelle when in Maui and his photography is amazing.

This is a TFP shoot. You will get no less than 15 pro edits by 2 professional photographers.

My studio business website is www.thelabcreative.com

Thank you for your consideration in this.
