

Relocate Furnace Ducts and install Furnace (burlingame)

Location **California**
<https://www.genclassifieds.com/x-504272-z>

I am building apartment in-law and need to relocate few ducts and install new furnace with temperature control for this apartment.

The ducts are about 50 fit long and are in the open ceiling about 8ft high. I will pay \$1500 and materials (or hourly, as we negotiate) for the ducts relocation and new furnace installation.

You should know the building codes and be able to communicate in English
When replying, specify your availability and experience and other skills you may have, please.
You can start working as early as next day!
