

Electrician to install sub

Location **California**
<https://www.genclassifieds.com/x-504278-z>

I am looking for electrician to install a sub-panel and a dedicated meter off the 200Amps panel located about 50ft away in a residential building in Burlingame. I will pay \$600 for the job and provide the materials.

You should have tools and experience.

You should know the building codes and be able to communicate in English

When replying, specify your availability and experience.

You can start working as early as next!
