

# Pits need loving homes (Aurora)

Location **Colorado**  
<https://www.genclassifieds.com/x-504326-z>

I know a lot of people cringe at the sound or sight of the pit bull breed, but not all dogs are "evil". Currently there are 46 pits looking for loving homes at DMK rehoming. We are a no kill shelter located in aurora. The pit bulls in our care will not be euthanized, and will remain with us until they find the right home. It is so hard to find homes for these guys since so many cities in Colorado don't allow these guys, so this is why I am reaching out to you. If you see this post PLEASE spread the word. If the pits in our care find loving homes that are the right fit then we can take more in. Who knows how many get euthanized daily. If you or anyone is interested in the breed and would like to consider adopting, please email me for info, or go to our website to see the dogs we have. We rescue all breeds of dogs, but the toughest to find homes for are the pits. Thank you for helping save the lives of innocent dogs. If these dogs don't match your lifestyle please look at other shelters or check out [pitbull.rescueme.org/colorado](http://pitbull.rescueme.org/colorado) -DMK
