I provide effective tutoring for your math and science struggles. I have a background in physics and mathematics with M.Sc and B.Sc in Physics and Currently PhD candidate, I love to teach / tutor science and mathematics. I have a sliding scale, beginning at \$15.00 / session for basic arithmetic and going up slightly from there depending upon course difficulty. I tutor people of all ages. I tutor in-home or at libraries or coffee houses, wherever is comfortable for you. Email with your math and science needs, and I'll get back with you to discuss your situation and perhaps set something up. Please feel free to Text in my number

then I will call or text you back (as you prefer). Mention what you want to study. I am very prompt to reply. Good.
