Brand new condition, week old, unlocked Nokia Lumia 635 Windows 8.1 smart phone. Used it on Metro Pcs for a week and just want a bigger screen for my bad eyesight. Very fast phone, decent camera, 4G LTE, great phone for the price. Windows is definitely fun, easy to use and I'm just looking for something with a bigger screen and front facing camera. Paid \$109, asking \$50. GSM Unlocked for AT&T, T-Mobile, MetroPCS, & other GSM carriers. Serious buyers call or text

Will trade depending on the phone. Willing to add cash if necessary. Maybe Android, iPhone, or Windows phone with bigger screen?
