I need to find this 6yr old male neutered mix a home. We are moving and due to health reasons he cannot go with us. He will not eat unless in his crate and he does not do good around other dogs. He is very hyper and like to jump on you he is friendly with people just not other dogs. He needs to go to a good home we got him from the animal shelter when he was a puppy. He will also come with his crate as he likes to sleep in it and he needs a cover over it when it storms. Serious inquires only as I will need to make sure he is going to a good.
