I need some sexy female models, I'm an amateur photographer and I'm looking for some women who don't mind being nude and put with other people. I'm interested in everyone, if you're the girl next door, if you have a sister that will pose with you, maybe a mom that is open to the idea, if you're very short or very tall please write. If you're pregnant or any unique look at all write me. You don't have to have any special attributes at all though, just be uninhibited and ok being naked and you're hired. This pays up to \$100 an hour, must send recent body and face pictures and they do not at all have to be professional. This is not for.
