## Need to hang new Chandelier (128th amp 125)

Location **Colorado** https://www.genclassifieds.com/x-504578-z

Have a new chandelier that I need to hang in entryway. It will require a brace in the attic and ability to hang the new fixture from the 20ft ceiling. This is replacing an existing fixture, so no new wiring required.

Please reply with cost to install and amount of time required.

Thanks and have a blessed!
