## The washer:

I'm selling my brand new LG washer never used. It's the newer style top load washer with no tall agitator in the center of the wash tub. It has features such as a true balance anti-vibration system, waveforce, cold wash technology, hydroshield, easy reach tub, jet spray rinse, and it's energy star rated. Cold wash technology saves on your hot water cost while slightly extending the wash time and filling the washer with cold water but the detergent is added with warm water to better activate the detergent. Waveforce is LG's name for the wash cycles used for cleaning and refers to the high speed spin on the wash cycle to clear out stains in clothing. Jet spray rinse is a jet of water that sprays down onto your laundry for a more thorough rinse. This washer has a 10 year warranty on the direct drive motor itself as well as a 1 year manufacturers warranty. See the attached links to see LG's web page for more info. The washer is 4.3 cu.ft. Ultra Large Capacity. I wash and dry king size bedding in these. They both come with all original owners manuals and documentation.

## Features:

- 8 cycles: cotton/normal, heavy duty, bright whites, bulky/bedding, speed wash, pure color, delicates, tub clean
- 30 min soak cycle
- 5 temp settings inc cold wash technology and Eco warm
- 3 soil level settings
- delay wash

## extra rinse settings

10 year warranty on direct drive motor

4.3 cu.ft. Ultra Large Capacity
