Hello! I have plenty of experience pet sitting from small reptiles to large dogs. I stumbled upon this line of side work when I was in between jobs in San Diego. Everyone owns a dog there but the pet care is outrageous on rates so that is where I came in!

I have experience with reptiles, bird, cats, dogs and smaller animals such as hamsters and gerbils.

I do offer overnight sitting or even sit on the weekends: I live in a house with a yard but for the time being can only sit smaller animals - small dogs are ok (even baby pits). If it is for a large amount of animals I prefer to sit at your house. I use to sit for a woman who had three large dogs and It was just easier to spend time with them at their home until they came back from vacation - plus the animals enjoyed the company. I make sure they are walked, fed, and have time to play -and bathe if needed.

If this is a service you need feel free to contact me at the email address.
