I am selling my Cushman Minute Miser 730 Electric Scooter. These were designed to move people around factories to save time. See the picture of the old advertisement for more information on how they were used. The scooter runs great and takes a full charger. It comes with an on board charger. I have no idea what year it is or how many hours are on it. It is fun to drive around the neighborhood, but isn't really enough fun for the garage space it takes up. I am asking \$850 OBO and I will help you load it, but you will need to bring a guy or two and a heavy duty ramp. It is really.
