I am an amateur photographer very interested in erotic photography. I am searching for sexy open minded females to model for pics. Compensation is not out of the question. The right candidate would be someone who likes being in front of the camera and in touch with their sexuality. Please reply with a couple pics if possible and what you have in mind. You would receive the photos on a cd rom if you would like for your own use. I just need experience. Im open to college students, young actresses, mature women, strippers and really any ladies that would be willing to let me photograph them. I would prefer to trade the pics and video for your time posing. Could start as soon as.
