I have a beautiful female Siberian husky that is 8 months old that is looking for a new home.

I just had a kid and she is allergic to the puppy so I have to find a new home for the puppy.

She is potty trained and knows a few basic commands as well as her name. She is spayed and is up to date with all her shots.

I am asking for a small adoption fee of \$200, but we can negotiate on that.

I will ask a few questions before giving her.
