Hi. My daughter and I found this little girl behind our apartment looking for food. We brought her in and have cleaned her up and got her looking healthy again. My brother is a vet and has cleared her to good health. I can not afford another cat otherwise I would keep her. She is sweet and so playful. Gets along with kids. Asking a Very small rehoming fee. I would take her to a shelter but if I can find someone here who could love and take care of her I would prefer that. I took pictures with my hand so you can see how small she.
