I know I'm not the only person that prefers to not wear clothes as much as possible. There must be other people out there who feel the same way and who would like to learn to play guitar. I have taught guitar lessons for several years and am now offering lessons specifically to people who love to be nude. Lessons will be conducted with both of us naked. Due to the nudity this is obviously for adults only, male or female. Again, I am hoping to attract students who, like me, enjoy nudity and do not think naked equals sex. In case it matters, I am.
