*

Have people often suggested that you ought to be a model?

. . . Have you ever wanted to try it out and see how you like it?

. Or, have you just wanted some great photos of yourself "in your prime"?

If so, read on! . . .

I am a professional artist and photographer and am looking for some new and reliable female models (age 18+) to work with, hopefully on a continuing basis. I work well with amateurs, and am a good director, so no worries if you are inexperienced. You'll be comfortable, guaranteed.

Looking mostly for art/fashion, edgy alternative-fashion (including tattoo-models), some swimwear/lingerie, mythic/fantasy concepts, and fine-art (nude/implied) modeling. If you are creative, and have a contribution to make there too, then so much the better!

In return for modeling, you will receive edited copies of your better shots, which you will then be free to post online for social and self-promotional purposes. If we succeed in creating some truly beautiful art together (my ultimate aim), then you will also receive fine-art prints. There is also the possibility for paid work here in the future. You will also have a lot of fun along the way, and perhaps learn a lot more about modeling. .

All I ask is that you be serious about things, communicate reliably, and follow through with our plans.

If interested, please respond with your contact information (email, phone) and a physical description, and send a few clear photos. Snapshots are OK, but please use a camera. Please include where you are located, what type of photo work interests you, and when you are available.
