Hi I am Monique,

Rescued, inherited, or new from the pet store; let me help optimize your relationship with your bird. No bird behaves the same, but I can help find what works best for you and your life style.

Get a personal assessment of your bird in your own home! Initial assessment include: Proper diet, physical condition, how to cut wings & nails, bonding, understanding bird's body language, cage

arrangement, how to handle good & bad habits, and interaction with other family members.

\*I can work on almost every issue ;(not limited to) biting, self-mutilation, screaming, fighting, boredom, depression, diet, overall health, or new ways on how to enhance your birds life with a few tricks. I cannot help with sick bird cases.

\* I will not judge you or your life style, or make you feel guilty for not understanding how to care of your pet. My goal is only to help better the relationship with you and your feathered friend. It can be very hard to understand what your bird is trying to tell you, but it's great when we finally get it!
