

Free Website Design for Non

Location **North Carolina**
<https://www.genclassifieds.com/x-506146-z>

My business partner and I constitute an ethically-centered, Raleigh-based web design team who is willing to create a free website specifically for a non-profit organization devoted to a worthwhile cause.

I do the writing and editing while my more computer savvy partner performs all the intricate technical tasks.

We are willing to model the website on a site that already exists, but we will not plagiarize, of course.

Earnest and serious inquiries only.
