I need to give my 3y/o cat away, as my fiance and I are moving in together and he is highly allergic to cats. He is an indoor cat and always has been, so he will likely need to remain as such. He doesn't have much exposure to other animals and is fairly nervous of strangers, so he would need to go to a family who is willing to take the time to understand this and work to get to know him. I am desperate to find a good home for him and unwilling to take him to a shelter. He is neutered and up-to-date on all vaccines. I will give him to a good home with litter box, food, water bowl, toys, etc. but I will need to meet you before making a decision. I do ask that if for some reason, the cat does not work out for you, you bring him back to me. I will take him back with no questions.
