We're selling our Tepui Roof top tent. We love this tent, wish we had used it more. It is so easy and quick to set up and pack away. It folds away with the mattress inside, and we kept our sleeping bag inside too and had no problem with the cover. The mattress is amazingly comfortable, and we were very surprised at how spacious it really is. We can not flaw this tent! Have all the supports for the rain fly and the owners manual, it has some wear and tear on the base and travel cover, everything else in excellent condition.

We upgraded the mounting brackets with Thule SquareBar 58". Heavy-Duty steel Square Bars are galvanized and plastic-coated to resist corrosion, with Thule 450 Crossroad Railing Feet. Selling the roof rack with the tent.
