

# QUICK ATTACH LOG SPLITTER FOR SKID STEER (2295, USD)

Location

Nebraska

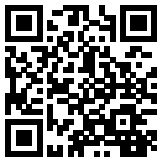

<https://www.genclassifieds.com/x-506453-z>

Here's a brand new, never used, QUICK ATTACH BRAND log splitter. This unit is brand new, never used, stored. It's less than a year old. Unit will split logs setting horizontal or vertical. It uses the skid steer for hydraulics and to move the splitter around. There are levers on the outside next to your work to run the piston for splitting the logs. You need not be in the machine for it to operate! These are far better than the inverted type since with those you have to continually move your skid steer from one piece of wood to another to split it. It becomes a pain in the rear! Please call me or contact me via Craigs List. I paid \$3,300 for this unit delivered. Save some bucks and split some wood. Thanks for.
