

8ft. Picnic Table

Location

New Hampshire
<https://www.genclassifieds.com/x-506461-z>

Selling 8 ft. Picnic Table, brand new. I made it last week for a customer who changed their mind, looking to sell it now. 8 ft. Picnic Table made completely from rot-resistant pressure treated lumber. Leg braces are fastened with 3/8in galvanized carriage bolts. The tabletop and benches are attached with decking screws so that over the years they do not rust, keeping the wood a wonderful color. This table was built to last for many years.

Contact me if you would like to purchase. I will drill out hole in center of table for an umbrella for free upon request. Will also help load into the back of a pickup truck or trailer for transport. Also, for additional \$5 I will tear it all apart for possible transport in vehicles that cannot accommodate an assembled table which also includes assistance in loading the vehicle and instruction on how to reassemble the table later.

Please contact me for.
