The core product or service that Fitz Digital Cad Service, L.L.C. will provide will be the "Digital Replication of Drawings".

This can be done on site, and after hours, in order not to interrupt the normal flow of work in your office, or off-site.

Off-site, for scanning purposes, may require additional service in order to secure that documents are protected.

Obviously, "on-site", the documents will remain on the premises and in your possession.

Since this is a "Digital Service" the customer must be willing to provide a clean computer hard-drive, DVD, CD, or flash drive for the storage of their files.

These items can be provided by "FDSC. L.L.C" for an additional fee.
