

Need to quickly convert an ImageLogo to Vector (anywhere)

Location **New York**
<https://www.genclassifieds.com/x-506629-z>

I provide a vectorization service to create high-quality vector images from raster (photos). Very reasonable cost and fast turnaround. You will be provided with high-res .PSD, .EPS, or any type file that you need.

This is not a simple photoshop filter, but hand-drawn vector image in photoshop which will be sharp at any size!

Conversions can be done for situations such as ...

- Jpeg or TIFF of a logo, but need it in .eps or photoshop vector file.
- images of a people or pets that want to be clip art for t-shirt or other uses
- and more...

Contact me for more details and let me know your needs.
20 yrs + experience in digital design and graphics for print and Hollywood feature film.

Thanks!
