Hi My Name is Hilda I'm a single mother from Guinea, I have a two year old daughter and I'm looking for someone to pick her up for me from daycare and stay with her a few hours til I get off my second job. My schedule changes week to week but it would only be mon-fri on average about 4 or 3 Days out the week. She has to be picked up no later then 6 and I normally get off at 9 no later then 9:30.

Give me a price and i see if it works for me. I just moved to New York not to long ago so I'm pretty much desperate for child care in the evening. I'm currently living in the shelter with my daughter and picked up this second job so I can get my own. So give me a reasonable price and if I can manage it and your willing to help me it would be.
