History/Social Studies ....and much more!

Feel more than welcome to contact me for subjects I may not have listed.

To assist you in selecting the service that best fits your or your student's needs, I have provided a brief description of some of the services I offer below:

Tutoring Services:

I assist students in catching up, getting ahead, and/or completing current assignments for classes. I create a personal study plan for each student to cater to his or her academic needs and work closely with the student and/or parent to monitor improvement and success. The overall goals for tutoring are memorizing, understanding concepts and retaining information. I also provide study sessions, study tips and memorization techniques to the student at the request of the student or parent.

Mentoring Service:

A free service I offer (at the request of the parent) to provide support and advisement for a student to promote academic success and tap into the student's full potential.

Online Homework Completion:

A service I offer where (once provided with all necessary course material) I partially or entirely complete an online course for a student. This service is for students taking completely virtual courses on sites like MyMathLab, SaplingLearning, MasteringChemistry, etc. I would create a personalized timeline/calendar and frequently touch base with the student to verify assignment due dates and homework, quiz and test deadlines. Prices for this service vary based upon a variety of factors including quantity, level of difficulty, turn-around time for work to be completed, etc. I provide quotes and price estimates after consultation via email, phone, or skype.

Essay Writing:

A service where I would write a portion or entire essay for a student using criteria provided to me by the student. Prices vary based upon length of paper, subject, type of essay, etc. I provide quotes and price estimates once all details of the assignment have been provided to me.

---

In terms of pricing, I am also pretty flexible and do provide services at a discount for two or more children from the same household as well as group tutoring sessions. I have provided a list of my rates below:

**RATES:**

Initial Consultation - \$10 (20 minutes or less)

Elementary - \$15/hour

Middle School - \$18/hour

High School - \$20/hour

College (or students working on college level coursework) - \$25/hour

Travel Fee (ONLY applies to distances beyond a 20 mile radius) - \$8 per additional 10 miles

\*NOTE - Initial Consultation is not an actual tutoring session. During this session I will meet with the student and/or guardian to discuss a plan of action to create a personalized study plan for the student. If you decide that I am a good fit for your academic needs, the Initial Consultation Fee will serve as a deposit and will be deducted from your first service!

I take great pride in my services and my essential goal in providing tutoring is to promote improvement in students. I have been in a position where I have played catch-up in a class and felt left behind. For that reason, I take my services seriously and have a genuine desire to see students conquer and overcome their shortcomings in subject where they have deficiencies. As a product of a family full of educators, I find that my passion and niche lies with giving back to others so I try to provide my services at reasonable and affordable prices. Thank you for taking the time to see what I have to offer. I hope to work with you or your child in the! (:
