 IN HAND READY TO SELL!
 asking \$85. CALL, TEXT, OR EMAIL FOR QUICK RESPONSE.

It's a Bat Bot. It's a Tank. Two ways to create adventures!

The Transforming Bat Bot comes with a cool Remote Control. Kids can use it to make him go forward, backward, or make the awesome transformation to Bat Tank--along with lights, sounds and speech, like "Bat Bot en route" and lots more! On the Bat Tank, there's a blaster with four disks to launch at any Gotham City villain. Or, press a button to activate the working claw and grab evildoers before they can make a fast getaway! (Figures sold separately.) Press the right button for "systems check", the left button for "mission mode" and you're ready to roll onto the next Bat battle! It's twice the excitement, twice the fun, with a robot and a tank in one!

Over 100 sounds and phrases!

Besides truly awesome transforming action, the Transforming Bat Bot has two modes that activate sounds and phrases just by pushing a button. Press the "mission" button to hear phrases like "Proceed with caution--it may be a trap!" or "Scanners show a collapsed building!" and cool sounds like sirens. Press the "systems check" button for lights, sounds and phrases like "Initiate power up!" , "Scan data", "Send transmission", computer sounds and more. Activating lights, sounds and so many phrases helps reinforce the idea of cause and effect as kids make it all happen!

Discover the worlds of Imaginext, where the stories and the play never end.
