Behringer Stratocaster Guitar with fabric carrying case, strap & Amp

I have had this guitar for a few years now, but really haven't used it much. I have taken good care of it and would say it is in like new condition, except there is some fading on the white part of the body due to age. It is not missing any strings, although I have had to replace some in the past so some are original and some are Skullbusters by Dean Markley. There's nothing really wrong with it, I just don't really use it so it would be better if someone could get some joy out of it.

I will sell the guitar and amp as a set for 150 (or best offer)

Or I would be willing to separate them, 100 for the guitar, 50 for the amp (or best offers)

If you are interested, or have any further questions, reply to the posting and I will get back to you asap. Thank.
